Professional Summary:

Aspiring Cybersecurity Engineer and third-year student at the Egyptian-Russian University with hands-on experience in network security, vulnerability assessment, and Linux system hardening. Skilled in Python scripting and AWS cloud foundations, with working knowledge of penetration testing methodologies, incident response procedures, and vulnerability management tools. Seeking an internship to apply and expand practical cybersecurity skills in a real-world environment.

Education:

- **University:** Egyptian-Russian University - B.Sc. in Cybersecurity Engineering.
  Expected Graduation: 2027 Currently: 3rd Year
  - Studying core topics: Network Security, Cryptography, Operating Systems, and Digital Forensics.
  - Actively participating in cybersecurity workshops and technical competitions.

Academic Projects:

- **Home Network Security Audit** - Personal Project.
  - Scanned a home network of 5 devices using Nmap to identify active devices and open ports.
  - Documented 1 potential vulnerability and applied basic firewall rules on a Linux machine.
  - Wrote a report summarizing findings and recommended hardening steps.
- **Linux Hardening Lab** - University Lab Project.
  - Set up a Red Hat Enterprise Linux VM and applied system hardening techniques.
  - Configured SSH key-based authentication, disabled unused services, and managed sudo privileges.
  - Practiced log monitoring using journalctl and basic intrusion detection concepts.
- **Password Manager CLI Tool** - Personal Project (Python).
  - Built a command-line password manager using Python and encryption libraries.
  - Applied basic cryptography concepts (hashing, symmetric encryption) learned in coursework.
  - Stored encrypted credentials in a local JSON file with master password authentication.

Certifications:

- AWS Academy Cloud Foundations - Amazon Web Services (AWS).
- Computer Hardware Basics - Cisco.
- Red Hat System Administration I (RH124) - Red Hat / Mahara-Tech (ITI Platform).
- CCNA: Introduction to Networks - Cisco Networking Academy, National Telecommunication Institute.
- CCNA: Switching, Routing, and Wireless Essentials - Cisco Networking Academy, National Telecommunication Institute.
- CCNA: Enterprise Networking, Security, and Automation - Cisco Networking Academy, National Telecommunication Institute.

Technical Skills:

- **Operating Systems:** Linux (RHEL/Ubuntu), Windows command line, user/permission management.
- **Networking:** CCNA (Cisco Certified) - TCP/IP, DNS, DHCP, firewall management, SSH hardening.
- **Security Fundamentals:** CIA Triad, vulnerability assessment, risk assessment basics, security policies.
- **Cloud Computing:** AWS Cloud Foundations - EC2, S3, IAM, core AWS services.
- **System Administration:** systemd, storage management, file systems, process control.
- **Hardware:** PC assembly/repair, component troubleshooting, mobile device basics.
- **Programming:** Python (scripting basics), Bash scripting.
- **Tools:** Wireshark (basics), VirtualBox/VMware, Git.

Languages:

- Arabic - Native.
- English - Intermediate (B1).

Soft Skills:

- Problem Solving, Team Collaboration, Continuous Learning.
- Attention to Detail, Time Management, Self-Motivation.

Personal Details:

- Date of Birth : 10/10/2003 .
- Military Status: Postponed (currently a student).
